Profile

Researcher specializing in Bayesian machine learning, scalable inference algorithms and robust modelling frameworks. My work focuses on improving the reliability, calibration, interpretability and uncertainty quantification. Experienced in developing complex Bayesian models and novel inference algorithms.

Experience

Research Associate, Imperial College London, London, UK 2026 - Present

- Developing Deep Generative Models for Infectious Diseases.

Research Scientist, 40folds, Paris, France 2026

- Developed novel Bayesian Media Mix Models and time-series forecasting algorithms, translating probabilistic outputs into actionable business strategies.
- Designed robust validation frameworks, advanced model averaging, and ensembling techniques.
- Wrote scalable, production-ready code using Python, JAX, PyTorch and GCP.

Doctoral Researcher in ML, University of Edinburgh, Edinburgh, UK 2020 - 2025

Thesis: *Probabilistic Inference in Bayesian Neural Networks*

Supervisor: Dr. Sara Wade

- Developed a **novel class of Bayesian Neural Networks** (BNNs) that unifies model selection and inference, addressing the trade-off between accuracy and uncertainty quantification.
- Derived a scalable **Variational Inference** algorithm for this architecture, enabling efficient approximation of complex posteriors.
- Established new benchmarks for BNN architectural choices, demonstrating that Bayesian model combination significantly enhances calibration and reliability in safety-critical applications.

Graduate Teaching Assistant, King's College London, London, UK 2022 - 2025

Led tutorials and marked assessments for Probability and Statistics courses.

Data Analyst, Nielsen IQ, Moscow, Russia 2020 - 2021

Built data pipelines to analyze retail measurement data, extracting actionable market trends.

Research Intern, NRU HSE, Moscow, Russia 2018 - 2019

Developed advances on braid groups and quantum matrix algebras.

Education

University of Edinburgh, Edinburgh, UK 2020 - 2025
Ph.D. in Statistics

University of Cambridge, Cambridge, UK 2019 - 2020
MASt in Mathematical Statistics (Merit)

National Research University Higher School of Economics, Moscow, Russia 2015 - 2019
Bachelor of Mathematics (First Class Honours)

Skills

ML/DL Frameworks	PyTorch, JAX, NumPyro, Transformers, LangGraph
Data Science	NumPy, SciPy, pandas, scikit-learn
Tools	Git, GitHub, Kubernetes, LaTeX
Languages	English (C2, full proficiency), Russian (native), French (B1)

Publications

1. E. Semenova, **A.Sheinkman**, T. J. Hitge, S.M.Hall, J.Cockayne, *SMRS: advocating a unified reporting standard for surrogate models in the artificial intelligence era*, **NeurIPS**, 2025.

Talks

ECML-PKDD (European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases), Porto, Portugal, 2025.

The first workshop on Advances in post-Bayesian methods, London, UK, 2025.

CMStatistics (Conference on Computational and Methodological Statistics), London, UK, 2024.

ISBA (International Society for Bayesian Analysis) world meeting, Venice, Italy 2024.

BAYSM (Bayesian Young Statisticians Meeting), Venice, Italy, 2024.

Early Career Researches Day of the Centre for Statistics Annual Conference at the University of Edinburgh, Edinburgh, UK, 2024.

Scholarships and grants

EurIPS travel support grant, 2025.

Travel support grant for the First workshop on Advances of post-Bayesian methods, €250, 2025.

ProbAI Hub Doctoral Prize Fellowship finalist, not awarded, 2025.

Dr Laura Wisewell Fund scholarship, €1,000, 2024.

ISBA (International Society for Bayesian Analysis) junior travel award, 400\$, 2024.

LMS (London Mathematical Society) early career research grant, €450, 2024.

Miscellaneous

Publications and a full list of research activities are available on the [website](#).

OVD-info volunteer (human rights defence and media group).

Sports: boxing (2021 - now), professional figure skating (competed 2002 - 2014).
